Lycon Waxing

LYCON has a variety of products to suit every client whether they have sensitive skin, stubborn hair or fine short hair. Lycon wax is the market leader in hair removal wax and is used around the world by many top spas and salons, frequented by international models and celebrities.

Lycon Pain Less Waxing

Using only the finest resins, natural ingredients and aromatherapy oils, Lycon delivers superior performance, removing stubborn hair as short as 1mm . At the same time the amazing low temperature and pliable waxes provide a nurturing and skin conditioning treatment for extra client comfort.

Why is Lycon Wax recognized as painless wax?

Prior to using Lycon Hot Wax, Pre-Waxing Oil is applied to the area and acts as a barrier between the skin and the wax. Therefore, the wax is able to shrink-wrap tightly around the hair and not stick to the skin, reducing client discomfort.
